Over the past six months, the ISA community has celebrated a multitude of remarkable achievements. The Class of 2025 graduates have earned places at the world's leading universities with their outstanding academic results. Meanwhile, the Class of 2026 has achieved remarkable success in the early admissions round, securing 15 interview invitations from Oxford and Cambridge, along with offers from other top global universities. Behind each success lies the unwavering commitment of ISA students to academic excellence and their determination to push beyond boundaries.

At the same time, the annual ISA Festival and Innovation Festival was held as scheduled. Under the theme of "Earth Symphonies," this grand event seamlessly blended technology with the arts, offering a unique and enriching celebration for the ISA community. Beyond the classroom, ISA students have continued to explore new horizons through UOI exhibitions, interdisciplinary projects, and charity initiatives, showcasing their exceptional qualities as well-rounded individuals.

与此同时，一年一度的爱莎日暨科创节如约启幕。以“大地乐章”为主题，这场盛会融科技与艺术于一体，为爱莎社区呈上别开生面的盛宴。学子们不止于课堂求知，更在 UOI 展览、跨学科实践与公益行动中探索未知，尽显全面发展的卓越风采。

In this edition of the ISA Newsletter, we invite you to look back on the highlights of recent months and celebrate the growth and achievements of our students. Let us move forward together, continuing to nurture and support our children on their journey to a brilliant future.

ISA Science City EY3 UOI Recap

原来我这么重要！爱莎科学城孩子们从社区中认识自己

This unit demonstrates how at ISA Science City, we nurture curious, caring, and principled learners from the very start. By connecting the PYP framework with the developmental milestones outlined in EYFS and Birth to Five Matters, we ensure our students are not only academically prepared but also growing into thoughtful, engaged members of their communities.

这个单元生动展现了爱莎科学城从孩子启蒙阶段，就致力于培养好奇、关爱且有原则的学习者的理念。通过将 PYP 框架与 EYFS 及 0-5 岁儿童发展指导中的成长里程碑紧密结合，我们不仅为孩子们打下坚实的学术基础，更引导他们在日常生活与社区互动中，逐步成长为有思考力、责任感与参与意识的小公民。这段探究之旅也为他们未来的学习与生活，画下了一个充满温度与希望的起点！

ISA Liwan Innovation Centre

走进田野，播种智慧 | 从课堂到世界舞台的爱莎荔湾故事

ISA Liwan's little farmers stepped out of the classroom and into the fields, beginning a unique journey of smart agriculture.

爱莎荔湾的“小小农夫”们走出课堂，走进田野，开启了一段别开生面的智慧农业之旅。

At the ISA Liwan Innovation Centre, we believe that education goes beyond textbooks — it lies in real experiences and creation. In the smart farm, students sowed and nurtured seedlings with their own hands, experiencing the power of life emerging from the soil. Through this process, they learned to respect nature and cherish food.

在荔湾爱莎科创中心，我们坚信教育不止于书本，而在于真实的体验与创造。在智慧农场里，学生们亲手完成播种育苗等环节，感受种子破土而出的力量。他们体会到农业的艰辛，从而学会尊重自然、珍惜粮食。

ISA Liwan Action Week

在行走的课堂中，看见成长的力量 | 荔湾爱莎高中（国际方向）践行周

Each Action Week at ISA Liwan is a promise — a promise to meet the world beyond the classroom, and to witness growth through real-life journeys.

At ISA Liwan, we believe that education is not the static delivery of knowledge, but a dynamic exploration of life; that growth is not a sudden revelation, but a continuous accumulation of understanding.

As one of ISA Liwan's signature educational programmes, Action Week has taken students across mountains and rivers, through civilisations past and present. This semester, our upper secondary students embarked on four distinct journeys:

Grade 9 explored the ancient porcelain capital Jingdezhen, Grade 10 uncovered the fusion of tradition and innovation in Wuhan, while Grade 11 split into two teams — one hiking through the natural and cultural wonders of Huangshan, and another travelling to Jiexi for a meaningful teaching service project.

每一季的践行周，都是一场约定——约定在课堂之外遇见世界，约定在行走之中见证成长。

在爱莎荔湾，我们始终相信：教育不是静止的传授，而是流动的探索；成长不是孤立的顿悟，而是持续的积淀。践行周 (Action Week) 作为爱莎荔湾的品牌教育活动，已陪伴一届届学子走过山川湖海、古今文明。本学期我们再次启程，九年级的同学走进千年瓷都景德镇，十年级探访江城武汉，十一年级则兵分两路——一支沉醉黄山的奇秀风光，一支深入揭西开展支教服务，用行动传递温暖。

Our young thinkers took center stage, using three carefully chosen real-world objects to explore and present their independent investigations into self-selected knowledge prompts. What unfolded was a captivating celebration of intellectual curiosity, revealing extraordinary thinking about the nature of knowledge itself.

6月13日，爱莎科学城十一年级的学生迎来了他们在IBDP课程中的一个重要里程碑——TOK（知识理论）展览。学生们围绕各自选择的知识论命题，通过三件与现实生活紧密相关的物件，展开独立探究与展示，向观众呈现出一场充满思辨张力与个性化视角的思想盛宴。

ISA Science City G1 UOI Exhibition 自然灵感全开！爱莎科学城一年级 环保秀场闪亮开演！

Spring leaves, summer blooms, autumn fruits, and winter snow — these gifts from nature became creative masterpieces at our G1 "Sharing the Planet" exhibition at ISA Science City. Over the past several weeks, our little artists embarked on an exciting journey of discovery, exploring the magical connections between humans and the natural world with curiosity and wonder.

ISA Science City EY4 UOI Exhibition 爱莎科学城大班的“友谊小花园” 盛开啦！

Our EY4 students have been exploring a fascinating question — “Who We Are?” Through stories, colours, and creative expression, they explored emotions and learned to show kindness. With every question, conversation, and act of care, they began to see how their words and actions could shape their relationships with others. Together, they built their own “Friendship Garden,” where every colour and shape reflected kindness in action, quietly showing that our choices can make the world a warmer place.

幼儿园大班的孩子们忙着探究一个有趣的问题——“我们是谁”？他们用故事、色彩和创作去认识情绪，学着用行动表达善意。在一次次提问、交流与关怀中，他们慢慢发现——原来我们的言语与行为，会让人与人之间的关系变得更美好。最终，他们亲手建起属于自己的“友谊小花园”，每一抹色彩与形状都在诉说：温暖的选择，也能让世界更美好。

The British Biology Olympiad (BBO), founded by the Royal Society of Biology (RSB) in 1995, is one of the most influential and authoritative national science competitions in the United Kingdom. Alongside the International Biology Olympiad (IBO) and the USA Biology Olympiad (USABO), it is regarded as one of the "World's Top Three Biology Olympiads".

英国生物奥林匹克 (British Biology Olympiad, 简称 BBO), 由英国皇家生物学会 (Royal Society of Biology, RSB) 创立于 1995 年, 是英国影响力最大以及最具权威性的全国性科学竞赛之一。与国际生物奥林匹克 (IBO)、美国生物奥林匹克 (USABO) 并称为“世界三大生物奥赛”。

The examination assumes knowledge of the common elements of the biology A-level syllabi and includes select topics from the undergraduate biology curriculum. In addition, the British Biology Olympiad will cover topics that all students are unfamiliar with. Questions will ask students to use their biological intuition, logic, and imagination to answer questions. They will be expected to apply basic principles that they are familiar with to new topics. Questions will aim to teach students about cutting-edge and topical biology.

Specific topics include:

- 20% Cell Biology
- 25% Animal Anatomy & Physiology (emphasis on vertebrates)
- 15% Plant Anatomy & Physiology (emphasis on seed plants)
- 5% Ethology
- 10% Ecology
- 5% Biosystematics
- 20% Genetics & Evolution

本竞赛知识范围涵盖英国 A-Level 生物课程大纲中的通用核心内容以及部分大学级别的生物内容。除此之外, BBO 试题也将涉及所有参赛学生均未接触过的主题。试题要求学生运用生物学直觉、逻辑思维和想象力来解决问题。参赛者需将熟悉的基本原理应用于全新领域。所有试题旨在向学生介绍前沿生物学知识与热点议题。具体内容包括:

清华教授在武汉爱莎打开哲学之门：当思考成为教育的起点

In an age defined by constant change and acceleration, education is no longer merely the transmission of knowledge — it is the awakening of thought. As understanding the world becomes the true purpose of learning, philosophy — an ancient yet enduring discipline — has once again returned to the heart of education. On October 29, Professor Xia Ying, tenured professor and doctoral supervisor from the Department of Philosophy, School of Humanities at Tsinghua University, visited ISA Wuhan to deliver a special lecture. With clarity and depth, she guided students to “open the door to philosophy,” exploring the relationship between humanity, the world, and the self. In this encounter, the boundaries between secondary and higher education quietly dissolved. Students experienced, ahead of time, the spirit of university scholarship — learning to question, to reason, and to seek truth in dialogue. Through philosophy, they stepped one stride earlier into the realm of genuine intellectual exploration.

在充满变化与速度的时代，教育不只是知识的传递，更是思维的唤醒。当“理解世界”成为学习的核心，哲学——这门古老却永恒的学科，正重新回到教育现场。10月29日，清华大学人文学院哲学系长聘教授、博士生导师夏莹受邀走进武汉爱莎，为师生带来专题讲座。她以清晰而深邃的讲述，引领学生“打开哲学之门”，思考人类、世界与自我之间的关系。这场讲座，让中学课堂与大学思维在同一时空相遇。哲学的思辨气息，让学生得以提前一步进入真正的学术对话，感受思想的厚度与求知的自由。
